Philips DVP5990_37

- New skins
- new filebrowser with scrollbars, outline font (48 char from USB, and from CD/DVD limit to "yellow band" - intelligent file cutter, max. 64 char.)
- 8 lines in filebrowser
- New icons for files.
- 4 fonts for subtitles. (small, standard, medium and large)
- Option to change colors for subtitles (text, outline or background).
- Menu for "Load Original Subtitles, if not find load all" with 3 option "Load Original then all", "Load All" and "Load match name".
- Menu for set vertical position for subtitles. 16 level for vertical position of subtitles.
- All menu for avi subtitles are in "General Page". You can change fonts, color and position (vertical) when movie play
- Autoload subtitles
- For avi files "GoTo: h:mm:ss". When play avi files press "Title" 2 times and enter H:MM:SS to jump to moment you want.
- WordWrap and Reformat (if subtitles line is long, automatic make wrap).
- Selectionbar follows playing file (mp3). The blue bar sets the current playing file, and yellow bar shows the selectable files. When a current playing file is on the next page of filebrowser, the user can't see it because the yellow bar still remains on the previous page. Now with this patch, blue bar "move" yellow bar.
- OSD font with outline, better contrast for all OSD message.
- DVD Quick Play. Menu is DVD-Video, with option "With menu" and "Without Menu". When second is selected, skip DVD menu and play main movie.
- Slideshow transition is set to fasted possible.
- Full support for unicond (ISO+ Joliet and USB) for all CP. (Thanks to **shoora**)

- Partial fix volume level. Volume is not changed when switch disk, etc. Not stored on power on/off.
- Partial remove UOP ([User operation prohibition](#))
- **If you want volume control (+ -) on Repeat keys**, I add a small program. Run AddVolume_599x.exe. Click on "Open DVP599xx.bin" and select firmware file. That's all.

Instruction for upgrading [HERE](#)

Version with CD, DivX, Philips and Vista LOGO.

DOWNLOAD: (all Logo - one link)

[DVP5990_37_vb6_v32_All_Logo.rar](#)

and for CP 1250,1251,1253 and 1254

[DVP5990_37_vb6_v32_CP.rar](#)

DOWNLOAD

Vista LOGO

[DVP5990_37_vb6_v32_Vista_Logo.rar](#)

CD LOGO

[DVP5990_37_vb6_v32_CD_Logo.rar](#)

**DivX LOGO**

[DVP5990_37_vb6_v32_DivX_Logo.rar](#)

**Philips LOGO**

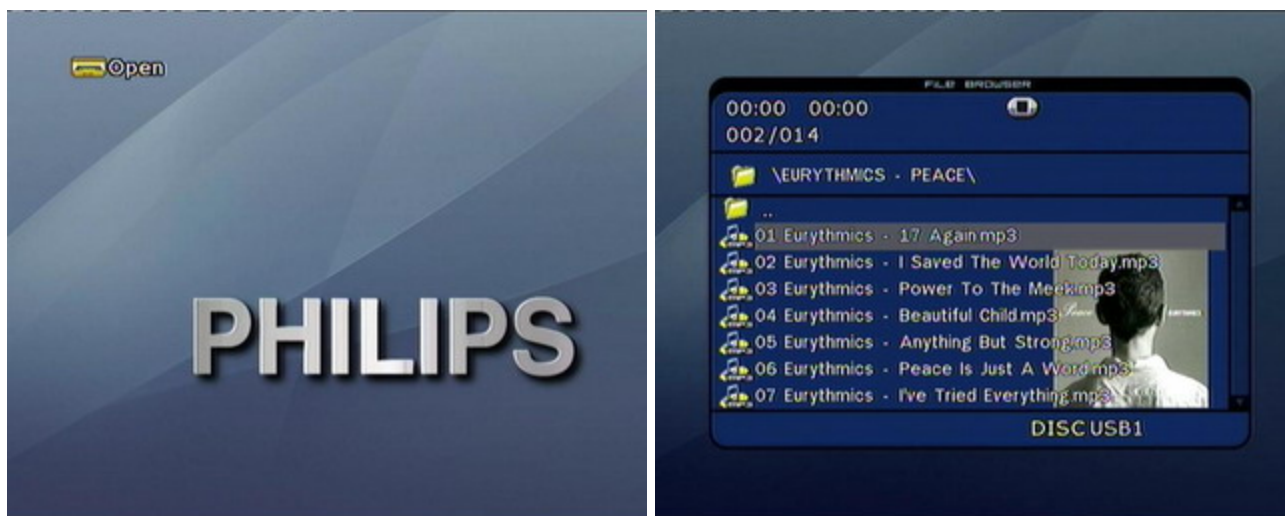

[DVP5990_37_vb6_v32_Philips_Logo.rar](#)

Version for CP 1250, 1251, 1253 and 1254 (CP = [Code Page](#))

For 1252 use version standard (DVP5990_37_vb6_v32 - Vista, DivX, CD or Philips)

<u>DVP5990_37_vb6_v32_CP</u>	
CP1250	<u>DVP5990_37_vb6_v32_1250.rar</u>
CP1251	<u>DVP5990_37_vb6_v32_1251.rar</u>
CP1253	<u>DVP5990_37_vb6_v32_1253.rar</u>
CP1254	<u>DVP5990_37_vb6_v32_1254.rar</u>

New design

- New skin for logo and filebrowser (smaller height for filebrowser).
- New font for OSD and filebrowser
- New icons
- Yellow bar is now grey
- 1 tag mp3
- Only version with "Load Org then all".
- Volume stored!

Download

LeoG say:

Could you please make CP1251 version of DVP5990/37 v4_1 ?

Monday, 2 September,2013 18.28

Your Name say:

Mom is a sweetheart but, untnufoately, she raised a spoiled, disrespectful daughter. I've known some Shellys and the parents who, out of love, enabled them. I know she won't do it, and probably can't, but I so wish that Mom could recoup her investment w/interest and open her own place, leaving Shelly to try to make it on her own. It's Shelly's only hope otherwise, she's going to be a very lonely woman someday. Shelly didn't deserve Gordon's help but Mom did. This was for her.

Eka5unCFd say:

Eh redbean, you can make "holy" books from these. Con the gulblie idiots to accept dubious claims of "wisdom", as it has been done many times over thousands of years!To paraphrase Einstein, the market for human stupidity is infinite!Last week some "born agians" knocked on my front door for the sole purpose of telling me the "good news" of my soul's purpose. I told them flat out that I'm an atheist but that didn't stop them. They still tried. Pulled out the KJV and read me a passage from Pslams. I rejoined with a passage from Exodus...which shocked them. Then they wished me well and went over to my Muslim neighbour to "try their luck". Alamak, the shouting that ensued after awhile was pure gold comedy lah. I had an idea of setting up a

chair and a beer outside simply to enjoy the "entertainment". But instead went inside to write rubbish on your blog :-))Consider yourself honoured ;-)

Scott Bazooka say:

Would like to download v4.1 with 5990_37 Slideshow Time and Transition set to factory defaults. Photos could then be viewed slowly, same as in early firmware, thanks !

marduk191 say:

Any idea how to disable the check for a dvd-rom at boot?

Monday, 5 December,2011 02.21

Leo say:

Is there a way to get cp1251 into 3560/f7 firmware?
